

The 2014 Alaska Natural Resource Month's theme is "Dream BIG." We are asking Alaskans to learn about Alaska's natural resources, be creative, be innovative, and to dream BIG about Alaska's future.

About us

Alaska Natural Resource Month and Discovery Day are grassroots outreach efforts bringing Alaskans, educators, and the private sector together with activities to celebrate Alaska's natural resources, our energy potential, and our state's economy.

The 3rd Annual Alaska Natural Resource Month will be held during March 2014, and Discovery Day will be held on March 13, 2014. March 13th is the day ARCO and Humble Oil announced their Prudhoe Bay discovery.

This year we have partnered with the non-profit Junior Achievement Alaska to bring exciting activities to all Alaskans.

Junior Achievement and Alaska Natural Resource Month share a vision of educating and empowering our youth who are Alaska's most precious and valuable natural resource.

Forestry

"March is Alaska Natural Resource Month celebrating the breath of resources that we have in this state which are world class"

– Steve Pratt, 30+ year Alaska Economist, and Mayor's Energy Task Force member
